

# Creativity , courage and friendship

## Art and Design

At the centre of the Art curriculum is creativity and courage. Within the teaching of Art, children are hopefully inspired to explore their creativity and are given the opportunity to use a wide variety of mediums and tools. It can take courage to commit to a blank canvas and so we foster a positive attitude where the children feel confident and willing to share ideas and try techniques to develop their skills and understanding. This is supported in the knowledge that through friendship within the school their artwork and ideas will be appreciated and responded to in a thoughtful and respectful way which helps them develop their confidence and allows them to flourish.
