

Art and Design at Hainford

Hainford uses and builds upon the National Curriculum and our own knowledge and skills progression documents to ensure that children develop their skills, knowledge and understanding.

In class one, through our continuous provision, children have the opportunity to explore a wide range of techniques, (drawing, painting, cutting, sticking, printing) using a wide range of different equipment such as chalk, brushes, pencils, stamps, dabbers and different inks, paints, playdough, glitter etc. In addition, children have one deep – study each term allowing them to explore new artists and develop and refine specific skills, knowledge and understanding.

In both class two and three, an in-depth deep study is taught once each term. Drawing is always included in every unit and all children have a sketch book to help them plan and develop their ideas.

In order to recognise examples of great art work or attitude within art, an award is presented to one child every half term.
