Part A: Pupil premium strategy plan

Statement of intent

Children in receipt of Pupil Premium should have equal access to a broad and balanced curriculum, in line with all pupils. We intend that they should make similar progress, from their starting points, to non-pupil premium children. Through targeted intervention, gaps will be closed.

Pupils will have good reading skills through quality first teaching, accessing high quality literature and rich vocabulary. Staff will focus on the Power of Reading, inspiring a love of reading.

High quality teacher and TA intervention programmes will target disadvantaged pupils to close gaps. In addition, the extensive support provided by the pastoral team intends to remove barriers to learning as well supporting social and emotional well-being.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

90% of children in receipt of Pupil Premium had some academic intervention during the academic year. Interventions in reading, mathematics and phonics were run for pupils identified by class teachers through question level analysis or teacher assessment. These were targeted, monitored and assessed half termly. Interventions were for pupils well below the expected standard; just below the expected standard but capable of reaching it; pupils at the expected standard but capable of working at greater depth.

Across the school pupils in receipt of pupil premium make progress in line with other pupils with similar starting points.

At Frettenham there were no pupils in receipt of PP at the end of KS2.

At Hainford 100% of pupils in receipt of PP, achieved the expected standard in reading at the end of KS2 (National 53%). 33% achieved the expected standard in writing and 67% in maths.

At St. Faiths' 67% of pupils in receipt of PP, achieved the GD standard in reading at the end of KS2 (National 10%). 67% achieved the expected standard in writing and 33% in maths.

Further information (optional)

Our broad and balanced curriculum is supported by visitors and visits, all of which are heavily subsidised by the school; individual pupils are also supported to attend visits, including residential visits.

Physical education apprentices have been employed and they enhance after-school provision and engage pupils at lunchtimes, positively affecting behaviour.

Many children in receipt of PP access our sensory provision; this includes staffed sensory circuit sessions with specialist equipment and designated sensory rooms.

The schools are involved in community based projects which broaden pupils awareness of the world around them.
