

Christian Distinctiveness

<p>Overview</p>	<p>At St Faiths' Primary School, we ensure that the teaching of our Design Technology curriculum embodies our Christian Distinctiveness and gives our children the chance to be the best they can be. We regularly refer to and reinforce our School Values:</p> <p style="text-align: center;">Compassion, Responsibility, Honesty, Forgiveness and Perseverance</p> <p>Through our Design Technology curriculum, we believe our children are given a variety of opportunities to explore different ways of learning and points of view. In doing so, we give the children the tools and skills needed to develop a deeper understanding of the modern world and those within it.</p> <p>Our core values feature profoundly in our DT curriculum. Within the subject, we put an emphasis on being responsible and honest, working with tools and equipment safely and effectively. We promote perseverance, allowing the children to achieve subject specific skills in textiles, food and nutrition, construction and mechanical components. Through some of our units, the children learn about the wider world, developing compassion for world issues – for example 'Fair Trade'.</p>
<p>Our Story: Noah's Ark</p>	<p>Through the teaching of a range of religious stories, such as our school Bible story of Noah's Ark, we further reinforce the idea that everyone is included at our school, regardless of their own life story and how different that might look to our own. By following God's word, everyone will flourish.</p>
