

Friday 20th July 2018

Address: 16 School Road, Frettenham, Norfolk, NR12 7LL

E mail: office@frettenham.norfolk.sch.uk

Website: www.harnserfed.co.uk.

Telephone: 01603 737405

This will be our last Newsletter before the summer and I think everyone is nearly ready for a break. I have heard so many adults in school, children and parents commenting how quickly the year has gone. It is great to see how confident the Reception children have become and we look forward to welcoming our new children in September.

As you are hopefully aware we had Ofsted visit us last week. Firstly thank you for the overwhelmingly positive support. As it was a 2 day visit he really did get the chance to see all the School in detail and I feel he got a very honest picture. We are still waiting for the report.

We also need to say congratulations to our Year 6 children with their SATs results. They really applied themselves over the year and have been a great set of role models to have in school helping develop the learning attitudes of others. I feel we have shown we can keep balance in the curriculum, ensuring they have an interesting, varied and challenging Year 6, which is not just focused on SATs.

Also this week we received our Recycling Stars reward for collecting the Star vouchers. We hit our £500 target and are looking forward to spending the majority of it on updating break time games and activities. Some of the money is also going to go to Gardening Club, to help get their garden project started in September.

We have also taken delivery of a new set of iPads, which is going to make a huge difference to what we are able to do next year. The Friends have also committed funds to replacing the batteries on our current stock, so hopefully we will nearly be up to a class set.

Even though we are at the end of the term staff are already planning next year, booking trips and continuing to develop our enquiry curriculum, so we offer the best opportunities we can to make your children's learning relevant, challenging and fun!

We all wish you a lovely restful summer and look forward to welcoming you back in September.

Celebration Assembly

	Star of the week	Value award
Class 1	Isla	Mahala
Class 2	Jude	Lily P
Class 3	Lorna	Elspeth

Attendance Celebration

	Whole School	97.64%
1 st	Class 1	99.17%
2 nd	Class 2	98.42%

Savills Norwich Drawing Competition

GREAT PRIZES TO BE WON

Why do you love living in Norfolk?

WIN: A £150 voucher for art supplies for your school from Savills, and an art hamper for you, courtesy of Jarrod.

Inspired by Norfolk Day, Savills is launching a summer drawing competition for children aged 4-16 to share why they love living in the county. Is it the hustle and bustle of Norwich, trips to the Broads and the coast in the summer? Perhaps it's spotting seals at Blakeney Point or all the fun of the Royal Norfolk Show?

To celebrate our own move to a new location in the city, we are looking for budding young artists to show us how much they love the county in art form.

Here are the details:

The three age groups are:

- 4 to 8 years
- 9 to 12 years
- 13 to 16 years

The winning entries will be framed and displayed in our new office at Lawrence House.

To enter, either send your drawing to our Norwich office by post or drop it into our friendly team at Hardwick House on Agricultural Hall Plain, Norwich, NR1 3FS.

Competition closes on 3 August 2018. Terms and Conditions apply

Terms & Conditions:

Closing date for receipt of entries is Friday 3 August 2018. This competition is open to any UK resident aged 16 or under before 3 August 2018 except for employees of Savills (L&P) Ltd herein after referred to as Savills and their families. To enter the competition you will need to draw why you love living in and around Norfolk on A4 plain paper using paints, crayons or pencils. One entry per child. The back of each entry must clearly show the entrant's name, school name and address, contact telephone number and age. Participants should post or hand deliver their entries to Drawing Competition, Savills, Hardwick House, Agricultural Hall Plain, Norwich, NR1 3FS. Data which is collected will be securely stored for the purposes of the competition only, and the winner will be contacted via telephone. After the competition has finished the data will be deleted in compliance with GDPR regulations.

Please complete in BLOCK CAPITAL letters, cut out and return with your child's artwork

Rainbow Bubble Snakes

A New and colorful way to blow bubbles ~ Rainbow Bubble Snakes - Outdoor Activity!

All you need is an empty water bottle from your recycling, duct tape, a old sock, dish soap and some food colouring.

Start by cutting the bottom of the water bottle off. Next slide the sock over the bottom of the bottle. Use duct tape to secure your sock, but you could use a rubber band as well.

Pour some dish soap into a shallow container with a little bit of water and gently mix. Dip the sock covered bubble blower into the solution and gently blow. You can add food colouring to make a multicoloured bubble snake!

Parental supervision required

The Exploding Lunch Bag

Here's what you'll need:

- Zip sandwich bag – zip-lock freezer bags work the best
- Baking soda
- Warm water
- Vinegar
- Measuring cup
- Tissue

Steps:

1. Go outside or to the kitchen sink.
2. Put $\frac{1}{4}$ cup warm water into the sandwich bag.
3. Add $\frac{1}{2}$ cup of vinegar to the water in the sandwich bag.
4. Put 3 teaspoons of baking soda in the tissue then fold it up.
5. Work fast now- zip the sandwich bag close but leave a corner open, enough to fit the tissue full of baking soda in.
6. Slip the tissue in and step back
7. Watch the bag slowly expand then explode!

This cool experiment is fueled by the simple chemical reaction between the vinegar and the baking soda. It releases CO₂, and once the bag no longer holds that capacity for the CO₂, the bag then explodes.

Parental supervision required

Make a Anemometer

An anemometer is a tool made to measure the speed of wind. With a few simple materials, making an anemometer is an easy arts and crafts project that students can do to help them learn various scientific methods and subjects such as experimentation, recording data, windy velocity, and physics.

Supplies & Tools:

- 4 plastic cups
- 2 straws
- A nail
- Hole punch
- Stapler

Follow the steps on WikiHow

Summer Challenges

Write about a summer holiday adventure you have had. 1 Credit

Make a collage of pictures and drawings of things you did over the summer holidays.
1 Credit

Read a book over the summer and write a review about it.
1 Credit

Have a go at some science experiments this half term. Up to 3 credits (find our science experiments on www.norfolk.gov.uk/childrensuniversity)

Arrange a picnic for the family, plan what you will take (food, something to sit on, games) help make the food, decide where to go and tell us all about your day.
1 credit

Dig out a map or globe and find a country you know nothing about. Find out everything you can about this country; the capital city, what language they speak, the preferred cuisine, any traditions specific to the country. Either write about it or for an extra credit, create a presentation about it and present this to your friends and family.

?????

Up to 2 credits

Have you thought about what you might like to do when you grow up and leave school?
Do you want to be a science teacher?
Do you want to be a geologist?
Do you want to work with animals?
Think about what you might like to do and plan your day around this career.
How would you dress?
What would your day involve?

1 credit

Also are there any CU learning destinations you could visit to learn more about this job? Perhaps you might like to visit them over the holidays.
