

# Teddy Bear Clinic

## Class 1

4 May 2023

Chris and some of his team are excited to come and share with you their passions for caring about the health and wellbeing of animals.

In the Teddy Bear clinic, they will help you diagnose your Teddy's problems, discuss with you and help you to put their bandages on. They may advise on what medication is needed but sometimes the best medication may just be lots of love and cuddles.

Chris and his team love sharing their knowledge and experiences so they are eager to answer any questions you may have, they can do this in the clinic or in the assembly that may be taking place. Anyone who would love to work with animals, whether it be by volunteering or a future career, our team are hoping their visit and discussions will inspire you even more and will offer you some wonderful advice on achieving your dreams too.

We can't wait to meet you all and your Teddies.
